

NAMUR HAS FALLEN! GERMAN LEGIONS SWEEP ON! ALLIES STUNNED & STARTLED AT KAISER'S VICTORY

FEAR GERMANY'S ARMY WILL INVADE FRANCE, DEATH LIST APPALLING

BULLETIN

Berlin, Germany, via wireless to the Associated Press to Nauen, Germany and Sayville, August 25—An official announcement made public here today says the city of Namur and 5 of its forts have been captured by the Germans. The bombardment of the 4 remaining forts continues and their fall seems imminent.

London, Eng., Aug. 25—Namur, the Belgian fortress has fallen into German hands, according to an announcement made by the official press bureau here today. The details were not given but the English regard the fall as inexplicable.

Berlin dispatches say five of the forts of Namur and the city itself has fallen and the capture of the four remaining forts is imminent.

A reverse to the forces of the allies is generally admitted by the English and French newspapers which say today news is "decidedly bad."

Newspapers assert that the fall of Namur is a very rapid movement of the German army. Russian officials however have been cautious against feeling too great elation over the preliminary successes pointing out that the German territory about the Vistula is strongly fortified along the line of the Russian frontier.

In other parts of Belgium, fighting is still in progress and a report from Ostend says 30,000 Germans have attacked Malines, 13 miles from Antwerp.

Charleroi has also been the scene of hot fighting this time, between the French and German troops and French encounter is believed to have begun there today.

Twenty-five thousand Germans have been surrounded between Courtrai and Arras, according to an Ostend dispatch to the London Daily Express.

A German dirigible balloon which was blown over Antwerp yesterday was brought to earth and the crew of 25 men captured. Another telegram says bombs dropped from the balloon caused several deaths and one of the missiles struck a hospital which however was occupied by the medical and nursing staff only.

London, Aug. 25—Admission by the war office that Namur has fallen has ended all hope in England of a speedy conclusion of the war. It is now admitted that the armies both from the British Isles and the colonies will have to be rushed to the front if the invasion of France is to be stopped.

It is believed that transports are now being fitted up for action. Namur is far stronger than Liege which is reported to be still holding out.

There is grave apprehension that at last the Germans are going to make a breakthrough in the east.

Russian reports relate the advance of the Russian armies in Eastern Prussia and the surprise attack on the German forces.

It is believed that the German army is now moving on to the west.

THE JAP CRUISER, KONGO, ONE OF THE MOST POWERFUL OF WAR VESSELS.

Above is a new photograph of the Japanese cruiser Kongo which is being held in Japanese waters in readiness to proceed to the German naval base in China at a moment's notice. Although Kongo is one of the strongest naval bases in the Orient the powerful guns of the new battleship Kongo, and the other ships of the Japanese navy could reduce the German fortifications without difficulty. The Kongo, a cruiser of the super-dreadnought type, was launched in March, 1914 and is one of the world's most powerful naval fighting machines.

"TODAY'S NEWS WAS DECIDEDLY BAD!" "ALLIED ARMIES WILL NEVER SURRENDER!"

London, England, Aug. 25.—Commenting on the loss of the Belgian stronghold, the Chronicle says: "The news today is decidedly bad." Adding that if the allies' losses have been heavy, "we may yet see before long the Germans' march in earnest upon Paris. Namur is a fortress of great strength which its defenders could possibly hold for several months."

"England and Russia must stupendously resolve that come what may to France they will never surrender to Germany but will stick to her as they stuck to Napoleon until they pulled her down. As long as we hold the sea we cannot ourselves be vitally stricken."

The censorship curtain is again down on the great battle now in progress along the entire frontier. It is reported that the fight is still in progress. At certain portions of the line the German assault is so heavy that the breaking of the allied lines would cause no surprise. This is especially so along the allies lines from Montmedy through Longwy and Spincourt. There is deepest disappointment over the fall of Namur.

Democrats Endorsed Both Cox And Wilson, Bull Moosers Favor Suffragettes And Drys, Republicans Are Mum

Columbus, O., Aug. 25.—Amid loud cheering and vigorous applause the state convention of three political parties—the Democratic, Republican and Progressive parties, called for the sole purpose of writing platform resolutions were opened here today almost simultaneously.

Throughout the morning delegations from all parts of the state arrived in the capital city and marched to the hall where the conventions were held.

The actual work of the meeting began with the naming of committees. It was expected that the Democrats and Progressives would finish before midnight. The Republicans, however, will not be ready to announce their platform before tomorrow.

"We endorse the wise statesmanship like administration of Governor Cox; we stand by each and all of the laws enacted by the Democratic general assembly, declared the tentative draft of the Democratic platform as reported by the resolutions committee. No mention is made either of Wilson's suffrage or liquor question.

It praises the administration of President Wilson and the work of the Democratic representatives in Congress and recommends that Congress enact the workmen's compensation law for the nation, similar to that in effect in Ohio.

High praise for President Wilson was given by the convention. Senator Pomeroy urged Democrats to get together and solidly support the state ticket. Governor Cox highly praised the laws he enacted, and announced his intention of standing by them in his fight for reelection.

In his keynote speech before Republicans Congressman S. H. Bass stated clear of all issues under discussion by his party as possible platform planks. All excepting an attack on the Cox administration and the Underwood tariff law. Bass praised President Wilson for keeping the United States out of war.

With a slogan of no compromise, no surrender, John J. Sullivan of East Liverpool, chairman of the Progressive party, sounded off the campaign keynote. He declared the party always has stood for Women's Suffrage and the abolition of the liquor traffic.

The opponents were headed by Prime Schoenberger, Hartenstein, the Austrian ambassador who is the dean of the corps. Other countries at present engaged in warfare were represented by the ministers to the Holy See from Prussia, Bavaria, Russia and Belgium. The only other European country represented was Spain. The remainder of the diplomats were from the eleven American countries.

DOCTORS ENJOY A GOOD TIME AT THEIR OUTING IN SPITE OF THE HEAVY RAIN

Rain put a damper on the outing arranged for Tuesday afternoon for the members of the Five County Medical Society at Millbrook park, but the local members went ahead with the program as originally arranged and spent an enjoyable and profitable afternoon at the park.

Dr. G. S. Mytinger, upon whom as secretary of the Hampstead Academy, fell the task of having charge of the arrangements, had notices from fully fifty members from out of the county to the effect that they would attend, but the rain interfered with their plans, and only a few were able to come. The majority of them had intended to drive to this city in their automobiles, but the heavy rains made this out of the question.

The big feature of the outing was the splendid address delivered by Dr. Frank Lamb, prominent physician and surgeon of Cincinnati, on the subject, "Little Things in Pediatrics," which was one of the most profitable addresses ever delivered before a body of medical men in this city.

All of the local members of the Society who could arrange to do so took advantage of the opportunity to hear the address, which was delivered in the Casino at Millbrook Park.

At one o'clock Caterer Albert Younger of this city, served a tempting picnic lunch, which the diners asserted could not have been excelled. Formality was thrown to the winds, and the staid professional men mingled about the banquet board on terms of friendly intimacy and cordiality. The dinner was served in the Casino, away from the disagreeable elements that kept the attendance down and in a measure secured the pleasure of the event.

The large majority of the guests were local members, but there were a few from distant points among those present. Weather permitting, there would have been at least fifty out of town guests. The Society has enlarged its territory so that it now includes eight counties, Scioto, Pike, Lawrence, Jackson, Adams, Ross, and Hamilton, in Ohio, and Greenup county in Kentucky.

HILLTOP RESIDENTS KICK AGAINST FLOODS

Many residents of Baird avenue, between Nineteenth street and Kinney lane, are kicking strenuously against the water that stands in the street after each hard rain. Nearly all the cellars in these two squares were filled with water Monday, all on account of a sewer being clogged up. The residents say that the sewer has been stopped up for a number of weeks and numerous complaints have failed to bring relief. Mr. George S. Mytinger's automobile got stalled in the water, which was so deep that it reached to the tops of the machines.

Mrs. Rosa McGlass, of 1298 Ninth street, was discharged from Hempstead hospital Monday.

Here Is Good News for Stomach Victims

Some very remarkable results are being obtained by treating stomach, liver and intestinal troubles with pure vegetable oils, which exert a cleansing, soothing and purifying action upon the lower bowels, removing the obstructions of poisonous food matter and gases and preventing their absorption by the blood. This done, the food is allowed free passage from the stomach, fermentation ceases and stomach troubles quickly disappear.

George H. May, for twenty years a leading Chicago druggist, cured himself and many of his friends of stomach, liver and intestinal troubles of years' standing by this treatment, and so successful was the remedy in his case that it has since been placed in the hands of druggists all over the country, who have sold thousands of bottles.

Though absolutely harmless, the effect of the medicine is so remarkable in effectiveness, and within 24 hours the sufferer feels like a new person. May's Wonderful Stomach Remedy is now sold by all druggists.

The decorators will complete their work in the Rudy Komatz picture show by Wednesday noon. Fred Reynolds, representative of the Columbus Theatre Equipping company, was in the village Monday to set up the moving picture machine but several parts of the machine had failed to arrive. Charles Edward, the two months old son of Mr. and Mrs. Lewis Smith of Gallia, passed away at the home of Mrs. Ruffin Hoppes on East Rhodes avenue, Tuesday morning at 5:05 o'clock after an illness of several weeks with spinal trouble. Besides the parents, three grandsons, two years, one year and two months, mourn the death. No time has been set for the funeral as the father is out of the village and cannot be located.

Dan Robinson, arrested Saturday evening by Deputy Joe Fitch is carrying a badly mangled finger. He fingered too long in the doorway of the jail and the officer pulled the door shut on Robinson's index finger of his left hand. The finger was nearly crushed off and Dr. W. G. Cheney had to take several stitches.

Quite a flurry was started in the neighborhood of Ohio avenue and Gallia pike Monday evening, when it became known that James Jamison was in the village. He was shot by Jesse Niece over two years ago and it is thought that he still holds a grudge against him. One neighbor saw him enter the Niece yard and knock on the front door about 11:30 o'clock, and then walk out to the sidewalk as if waiting for someone to come to the door. Officer Joe Fitch happened along at this time and escorted Jamison on to a street car with the orders to give the village a wide berth hereafter.

speaking it is a "double" and quite a bit through the South with the team displays some rather unusual country company. He is clever work in "tossing" hoop-throwing, well known at the Sun and Indian clubs. It is scarcely the latter half of this week. Allie struggle not just spiky and long has been traveling through the country part of the country, and even in two days with his conscience and has been playing to large audiences. When he appears in Portsmouth this strength into it and receives a applause as proportionate.

The evening of the bill is a quartet. The members divided between the sexes. Individually they can sing and collectively they are a treat. And then the act is dressed and the songs, fetching and that goes a long way.

Two black face comedians open the beginning of the end. They take some original stuff, sing a few songs and taken all in all are entertaining.

A pleasing little farce, entitled "The Family Stone Girls" closes the bill. The "family chorus" is young and good looking with emphasis on the looks, they can sing above the average—but the feature of the act is the wardrobe. The personal stylish dresses gives an added zest to an otherwise extraordinarily clever act of its kind.

Not about points of the treatment. All symptoms are greatly exaggerated and we are not able to exercise the bit lost in contact with the Altruistic state of mind. I have directed the conclusion that among peoples, as well as among individuals, the Altruistic state of mind is the most important. I have been thinking that that report has defective and incomplete.

LET ME SEE
YOUR EYES

If an hour's reading makes your eyes ache, if you are obliged to stop work periodically to rest your eyes for a few moments, if you find it easier to read nearer than the normal 12 ins., or further away than this, if you cannot recognize people across the street, if you cannot read street names easily, or cannot distinguish the time by public clocks, if you have to make an effort to see clearly—killing the brows for example, if you find light gives you pain in the eyes, or if you require more light than others, if you have any of these difficulties let me see your eyes, so that you may learn definitely whether glasses have become necessary. No glasses for examination and glasses recommended only when necessary.

Picking Up Money

Using these columns is pretty much like picking up money on the streets. Walking is small effort, you wear out a little less leather, the money you pick up is clear gain, if you can't find the owner.

So it is little effort to telephone your "want" to this paper, your carrier will collect the little cost—only 25 cents a word each insertion—and the little ad is altogether likely to get for you what you want.

Wireless Tells Of
Germany's Victory

London, Aug. 25.—A wireless dispatch from Berlin to the German embassy in London tells of a severe defeat of the French troops by the Germans in a battle which raged from Aug. 17 to 21 in the course of which more than 150 field guns and 10,000 prisoners were captured. It says Lunenburg was taken by the Germans and that the army of Gen. Joffre, the French commander-in-chief, was broken up, making probably a concentric advance of all the German armies towards Paris.

The wireless dispatch adds that the Duke of Württemberg's German army marching through Belgium has completely crushed another German column defeated on English brigade towards the river Meuse.

FIGHTING IN
BELGIUM

(By Bernard Bolandart, International News Service.)

Russendael, Holland via Rotterdam and London, Aug. 25.—Thirty thousand German troops attacked Antwerp, only 12 miles from Antwerp, today, according to advice received here.

Belgian cavalry is opposing the Germans and skirmishes are frequent in Flanders.

The reported attack upon Antwerp also known as Mechlin in Belgium is a serious one and is believed to be a prelude to an invasion of Belgium.

The withdrawal by order of King Albert.

NO OBJECTION
TO WILSON'S
PROGRAM

Washington, D. C., August 25.—Foreign governments, thus far, have offered no objections to the American plan of government owned ship lines. President Wilson said today that the United States could purchase ships from Germany or any other nation and not be considered as endorsing any international precedent.

Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Dolly.—Is it decent for girls to play base ball in bloomers when a crowd of fellows and other people are onlookers?

WANT TO KNOW.

If they want to play ball, I should think that bloomers would be the proper thing to wear. Playing ball is just like going in bathing or horseback riding. You could not swim very well in your street clothes, could you? Neither could you make a home run in a long tight skirt.

Felsmere, Fla., August 20.

Dear Miss Wise.—As every one comes to you for advice I thought I'd do the same. How long does it take the average student to learn stenography? What are the wages of a stenographer? Is my writing good?

WOULD-BE STENOGR.

It all depends on the student. Some can learn it in three months, others in six months and some never learn it, no matter how hard or long they study. Competent stenographers get good salaries. Yes.

Ashland, Ky., August 22, 1914.

Dear Miss Wise.—In your column of August 20th, you advise that a couple can live on \$15 per week. Wish that you would kindly publish recipe, showing how that can be done. Would have married long ago if I thought it possible for two to live on \$15 per. A girl friend of mine has received an invitation to a series of dances to be given by the club of your city. Can you recommend this club?

PROSPECTIVE BRIDEGROOM.

You ought to be able to live on six per in Ashland, where you can get everything for a song. I cannot recommend any dances where girls are expected to go alone, or with some other girl, and depend on some one they meet, or do not meet, at the dance, to escort them home at midnight or long after that hour. Personally, I think girls should not go to such places.

Dear Miss Wise.—As I am going to enter High School this fall, I thought it would be a good idea to turn in many important points on the late war as is possible. Will you please tell me the real and immediate causes of the war in the Old World? I would be thankful for any information on that subject.

WATCH FOR JR. O. U. A. M. PARADE TONIGHT

Four Bands Will Play; Convention Is A Big Success

Under most auspicious conditions committee is sparing no energy in extending a glad hand to the delegates. The credentials committee was kept busy during the day registering the delegates and approving their credentials. The members of this committee are T. R. Barr, of Martin's Ferry, Chairman D. O. Swadlow, of Greenville, and A. C. Jacoby, of Massillon. This committee has quarters in the lobby of the Washington.

The big event on Tuesday is the big street parade Tuesday evening, which will move over the principal streets of the city. It is estimated that between 2500 and 3000 delegates and members will be in line.

Owen Hopkins, salesman at the Steinkamp store, and a prominent local Junior, will be Grand Marshal of the parade, and will be assisted by numerous aides, drawn from the local membership.

The parade will form as follows: at the corner of Second and Market streets, at 7:45 o'clock, near the lower esplanade:

- Platoon of Police.
- Grand Marshal Owen Hopkins and Aides.
- River City Band.
- Regimental Officers and Staff, Co. V.
- Mayor Frick, Safety Director Lake and National Officers in automobiles.
- State Officers in Automobiles.
- Portsmouth Band.
- Delegates in Marching Form.
- London Delegation, headed by London Band.
- Blowell M. R. Church Band.
- Members of Local Council and vicinity in marching form.

The line of march will be: West on Second to Jefferson, north on Jefferson to Third, east on Third to Market, south on Market to Second, east on Second to Chillicothe, north on Chillicothe to Gallia, east on Gallia to Main, north on Main to Eighth, west on Eighth to Chillicothe, south on Chillicothe to Second, and counter-march to Gallia, where the parade will disband.

On Wednesday evening the delegates and visiting and local members will be guests of honor of the Daughters of America at an open meeting and reception to the state officers and delegates, which will be held at the Ben Hur hall, corner of Fifth and Chillicothe streets, at 8 o'clock.

The arrangements for the evening are in the hands of the following committee: Frank H. Schmidt, P. W. Quicker, Lynn Hornum and Anna West, and they have arranged the following program:

- Opening Song—America.
- Invocation—Rev. Crayton S. Brooks.

Among the early arrivals was the Newark delegation, which is making a strong play for the 1915 convention. The members of the delegation were on the ground early, distributing cards, handing the Newark county capital for the 1915 meeting place. Cincinnati is also after the convention, although the members of the Queen City delegation had not started their campaign in earnest Monday evening.

An exciting contest is also likely to develop for State Vice-Councillor, there being two active entrants in the race, O. T. Patterson, of Bellefontaine, is being strongly backed by a large number of the delegates, while Charles Baker, of Dayton, a former candidate, will also be presented by his friends as a candidate. The present State Vice-Councillor, C. D. Hauptweaver, of Canton, will be advanced to the head office without opposition, while the fight will center on the next highest office.

A spirited contest will also develop when the convention chooses its representatives to the National Council, as several groups of delegates are pushing their claims. Special trains from Cincinnati and Columbus, loaded with delegates from these cities and intermediate points, arrived Monday afternoon and were met by local reception committees, who escorted them to the headquarters at the Washington hotel, and later arranged for their entertainment while here. The local

WAR

(Continued From Page One)

to break through and that a real invasion of France will soon be made.

There was a council of the cabinet today at which the entire war situation was gone over. It was stated that the army was working out as well as could be expected.

It is admitted that the British losses to date are enormous. The total number of casualties when made known will be appalling and officials say that when the figures are revealed they will "startle the world."

Discussing the fall of Namur, military experts of the London newspapers are said to be mystified at its loss.

"It is one of the inexplicable events that makes war a gamble," said the Times expert.

"It was defended by works stronger than those at Liege and had a far stronger garrison. It was a fine stroke for Germany to have rushed the place from the allies."

Many of the military experts suggested that they have been over-confident. Some of the French commanders were too eager and advanced their lines without covering their position. This was the case in Lorraine where the French rushed pell-mell into carefully laid traps. Reports say Nancy was also taken by the Germans. The war office claims it has no information to make public about the capture at this time. At Antwerp, Belgium, Germany sacrificed one of her latest types of Zeppelin dirigibles today in a vain attempt to destroy the Royal Palace with high explosives. Although the entire city was terrorized by the appearance of the balloon, the craft was soon brought to earth and the entire crew of 25 men and officers captured.

The Zeppelin made its appearance over the outskirts of the city early today. Although flying high, notice of its coming was quickly given by the buzzing of its propeller. The Zeppelin circled the palace and dropped three bombs. The palace escaped but three houses were demolished and three persons killed.

Aha! Hint Of Cowardice

London, Eng., Aug. 25.—Commenting on the fall of Namur before the Germans the Times says it is one of the inexplicable events which makes war a gamble that it is. That Namur should have fallen in two days will require a deal of explanation, the Times adds.

French Declare Line Is Holding.

Paris, France, Aug. 25.—The following official statement was issued by the war office today: "The German offensive movement in the north, which was stopped yesterday appears today to have been resumed. The enemy is however being held back by a French army acting in conjunction with an English and a Belgian army."

Had Brick To Help Prove Her Charges

Mr. and Mrs. Cleve Bryant of East Fifth street, were callers at the mayor's office Monday evening to complain about the conduct of Luther and Hazel Tabor, whom they claim have been mistreating Mrs. Bryant. They brought with them a brick which Mrs. Bryant claims one of the Tabor's hurled at her, striking her in the back. The Tabor's are now in Kentucky.

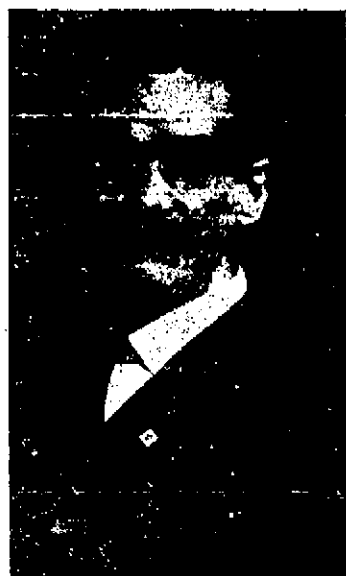

FOUR PRISONERS ARE TAKEN TO WORKHOUSE

Four prisoners, recently committed to the Cincinnati workhouse by Mayor Frick were taken to that institution Tuesday morning in the custody of Officer Ora Clark and Fred Bauman, clerk to Safety Director Lake. BULL DOG IS SCRAPPY

Quite a commotion was created at the First National bank corner when Miss Page Lewis' bull dog attacked a small rat terrier belonging to Miss Lucy Hall during the rain Tuesday morning. Miss Hall broke an umbrella over the head and back of the bull dog but it required the combined efforts of several men to force the dog to release its hold on the smaller canine. The bull dog had previously chased and attacked the rat terrier at Woolworth's five and ten cent store.

EMPTIED SHOT GUN INTO HIS SON-IN-LAW'S SIDE

CHAS. CULP VICTIM OF V.C. WESTLAKE'S SANGER; GUN USER IS ARRESTED

Angered because his son-in-law and neighbor, Charles Culp, a tie buyer, threw out as second class quality a number of railroad ties which he had hewn, V. C. Westlake, better known as "Bud" Westlake, a tie maker and tie hauler of near Harrisonville, emptied the contents of a shot gun into Culp's left side late Monday afternoon. Culp's left side from his hip to his ear was fairly riddled with buckshot, but it was stated Tuesday morning that he would recover.

The shooting occurred on Westlake's place, located about two miles east of Harrisonville, shortly after three o'clock Monday afternoon. Culp, who is associated in the tie business with Joseph Brant of Lucasville, went to his father-in-law's place early Monday afternoon to take up some ties which Westlake had finished for the market. During the afternoon he found occasion to throw out several ties which Westlake claimed were first quality ties. This provoked Westlake to take issue with him on the quality of the condemned ties several times.

Finally, Westlake lost his temper when Culp continued to throw aside ties which the former insisted were first grade, and a heated discussion arose, which terminated in Westlake coming into the house after his shotgun. Upon his return, he fired point-blank at his son-in-law, the contents of one barrel, as a matter of fact, lodging in the left side of Culp's body. Culp took refuge behind a small shed nearby, where he was safe from further damage, although Westlake persistently dared him to come out and fight.

After the shooting, Westlake left his home and started in the direction of Lucasville, presumably to get a doctor up to the injured man. Deputy Sheriff Smith, who was on duty at the time, saw a man in the direction of the shooting and arrested him. He was taken to the Lucasville jail and kept there until the arrival of a doctor from Harrisonville. The doctor, Dr. J. N. Thomas of Lucasville, went on the road and was released, pointing the action of the grand jury.

Westlake was brought to Portsmouth Monday morning by Constable Shumaker and arraigned in Court. A. J. Perry's court on an arrest on suspicion of shooting with intent to kill. The news of the shooting was reported by Attorney Edgar A. Ryan. He was the night on duty at the Lucasville jail and was the first to see the man who was shot. He was the first to see the man who was shot. He was the first to see the man who was shot.

Germany's Vast Trade Is A Prize Of The Present War

London, Aug. 25.—Germany's vast world trade is one of the prizes of war which England is trying to capture. While Great Britain's army is fighting the Prussian military advance in Belgium and the British fleet is opposing the Kaiser's warships in the North Sea and with Germany's commerce swept from the oceans, those remaining behind in England are initiating a movement of greatest importance to capture the German and Austrian trade by invading the world markets to procure for Great Britain a great measure of the earth's commerce.

The vastness of Germany's exports demonstrates the opportunity which is at hand and suggests the possibility that the United States too may profit enormously by the great war. It is obvious that German commerce will be paralyzed for many months, possibly for years during which time the far reaching requirements of the world will be largely met by Germany and Austria, must still be met, if the world's wants therefore

filled by Germany and Austria are no longer so filled the work must be done by others. England is already after her share. The United States, too, probably has an eye on the situation.

When England, shortly after the start of the war, began to investigate the situation, figures were produced, which astounded the public. It was shown that Germany's total exports were nearly \$2,500,000,000 annually, which was rather disconcerting to those who had been taught to believe complacently that they had monopolized the greatest manufacturing country in the world.

It was also shown conclusively that England had been importing large quantities of goods made in Germany, even such products as could be manufactured in the United Kingdom.

One characteristic point was a discovery of which the general public knew nothing, that Germany exported twice as much sugar as England, which here before had been held up the world over to predominate in that line.

The vastness of Germany's exports demonstrates the opportunity which is at hand and suggests the possibility that the United States too may profit enormously by the great war. It is obvious that German commerce will be paralyzed for many months, possibly for years during which time the far reaching requirements of the world will be largely met by Germany and Austria, must still be met, if the world's wants therefore

filled by Germany and Austria are no longer so filled the work must be done by others. England is already after her share. The United States, too, probably has an eye on the situation.

When England, shortly after the start of the war, began to investigate the situation, figures were produced, which astounded the public. It was shown that Germany's total exports were nearly \$2,500,000,000 annually, which was rather disconcerting to those who had been taught to believe complacently that they had monopolized the greatest manufacturing country in the world.

It was also shown conclusively that England had been importing large quantities of goods made in Germany, even such products as could be manufactured in the United Kingdom.

One characteristic point was a discovery of which the general public knew nothing, that Germany exported twice as much sugar as England, which here before had been held up the world over to predominate in that line.

Germany's vast world trade is one of the prizes of war which England is trying to capture. While Great Britain's army is fighting the Prussian military advance in Belgium and the British fleet is opposing the Kaiser's warships in the North Sea and with Germany's commerce swept from the oceans, those remaining behind in England are initiating a movement of greatest importance to capture the German and Austrian trade by invading the world markets to procure for Great Britain a great measure of the earth's commerce.

The vastness of Germany's exports demonstrates the opportunity which is at hand and suggests the possibility that the United States too may profit enormously by the great war. It is obvious that German commerce will be paralyzed for many months, possibly for years during which time the far reaching requirements of the world will be largely met by Germany and Austria, must still be met, if the world's wants therefore

filled by Germany and Austria are no longer so filled the work must be done by others. England is already after her share. The United States, too, probably has an eye on the situation.

Columbus, Aug. 25. — Suffragettes and temperance advocates descended in force upon the state convention of the Democratic party in this city today and demanded recognition. The suffragettes want a plank inserted in each platform and the temperance people ask for a plank denouncing the proposed wet amendment. At noon today the resolutions were that neither the Democrats or Republicans would agree to the demands. It is probable that they will be granted by the Progressives.

The platform which the Democrats will adopt will be brief. It will endorse the National and State constitutions, the League of Nations law and other legislation, but will make no reference to either the wet or dry amendments. Cincinnati delegates will try to secure the insertion of a plank in the Republican platform, favoring the Wet Amendment, but it is not likely that they will succeed. The dry delegates from the rural districts will be strong enough to prevent this.

The Democrats were the first to get down to business. They elected Governor James E. Campbell, as convention chairman, in his address, reviewed the work of the Democratic general assembly, bestowing high praise upon the administration of Governor Wilson, whom he termed a man of "blood and iron," who had pluck enough to tackle the liquor question. He said that President Wilson, through his achievements, his purity of purpose and nobility of soul, is the most conspicuous figure in the world, the calmest and most sagacious. "He is the most pathetic figure on earth; and yet there is one American so lost to shame, one insolent bully so eaten up with his own egotism, that he has swaggered through New England engaged, to use his own language, in 'hammering the president.'"

There are in the neighborhood of 400 delegates at each convention. Governor Cox will speak at the Democratic convention this afternoon, and so will Senator Hammer, according to Arthur Black, his secretary, who is here. Attorney General Hogan, Democratic candidate for Senator, will be another speaker. At the Re-

publican gathering, the principal address is by Congressman S. D. Willis, the candidate for governor, and Warren G. Harding, candidate for Senator, will also speak. The speakers for the Ball Moose gathering are John L. Sullivan, the chairman; James R. Garfield, candidate for governor, and A. L. Garford, candidate for Senator.

Congressman John J. Whitacre, who made an unsuccessful race for the Democratic nomination for governor, is not attending the convention. Mr. Thomas, his private secretary, who is a delegate to the convention, gave it as his opinion that Mr. Whitacre would not be an independent candidate for governor. It was reported a week ago that he thought of running as an independent.

Dr. Washington Gladden, the eminent Columbus Congregational divine, recognized as the leading minister of that denomination in the country, in his speaking piece Sunday asked that the Catholic church be given the highest wisdom in the selection of a new Pope to succeed the late Pope Pius, whom he referred to as a Godly man. Dr. Gladden is broad in his religious views and has frequently spoken at Catholic gatherings.

The largest single fee paid to the state under the domestic corporation franchise tax this year

will come from the Pittsburgh, Ft. Wayne & Chicago Railroad Company, which will pay into the state treasury, as its share of this tax, \$108,225.88. This represents three-twentieths of one per cent of its paid up capital stock. Other companies whose fees are large are the Cincinnati Gas & Electric Company, \$52,584; Cleveland & Pittsburgh Railroad Company, \$38,687; the Willys-Overland company, \$37,500 and the Youngstown Sheet & Tube Company, \$35,232.

Related accounts show that ex-Senator Joseph B. Foraker spent \$1,277 and ex-Congressman Ralph D. Cole spent \$6,362 in their attempts to win the Republican nomination for Senator, which was carried off by Warren G. Harding. Foraker said that there were no contributors to his campaign fund, and that he himself put up all the money used in his own candidacy. Cole received a number of contributions, the largest one of \$1,395, coming from B. G. Dawes, president of the Ohio Cities Gas Company, of Columbus, a recent merger of all gas companies in this territory.

KAISER'S ARMY SWEEPS EVERYTHING

(By Herbert Temple)

London, Aug. 25.—Heavy cannonading is heard south of Mons, according to reports received here. It is believed that the Germans have already reached the entrenched line of the allies and that the battle has been renewed with the Kaiser's army shelling the French and British army. No official news to this effect has been given out by the government press bureau, however.

Despite the official announcement of the fall of

Namur, it is thought that the forts there may still be holding out and that the announcement may relate only to the town itself as was the case at Liege. With Namur in their possession and the first offensive movement of the French and British allies in southwestern Belgium crushed, the Germans pushed on today to the French frontier to renew the attack.

The advice from the field, both official and unofficial sources say that the French are upon the defensive, having fallen back from their defenses after three days of

the worst fighting in modern warfare. The loss on both sides has been enormous although no official figures have been issued.

In the north detachments of Uhlans have crossed the Franco-Belgian frontier and are reported six miles from Lille and the department of Nord, 10 miles over the Belgium border.

The fall of Namur caused amazement and consternation in London and Paris. It had been believed that the troops massed around Namur would be able to put an effectual check to the headlong dash of the Kaiser's

legion. Fighting around Namur and Charleroi was one of the most terrible character. The onslaught of the invaders being met by the infantry, cavalry and artillery of the allied forces.

The battle lines of the mighty German army have started from the northeast to the southeast, beginning at a point near Mons and ending at a point near the northern boundary at Luxembourg.

A central engagement, however, is reported to be taking place at a point south of this great 100 mile battlefield in the region of the Vosges mountains.

be decided upon by the commander-in-chief, it will resume a vigorous offensive.

"Our losses are heavy, it would be premature to enumerate them. It would be equally so to enumerate those of the Germans who suffered so heavily that they were obliged to abandon their counter attack and establish themselves in fresh positions in Lorraine."

"We delivered four attacks yesterday from our position north of Nancy, inflicting very heavy losses on the enemy."

"In regard to the general situation we have the full use of our railroads and retain command of the sea. Our operations have enabled the Russians to come into action and concentrate the heart of West Prussia. It is to be regretted that the offensive operations failed to achieve their purpose as a result of difficulties impossible to foresee. It would have shortened the war but our defenses remain intact in the presence of an already weakened enemy."

"Every Frenchman will deplore the temporary abandonment of portions of Alsace and Lorraine, which we had occupied and certain parts of the national territory will suffer from events of which they will be the theatre."

"The ordeal is inevitable, but temporary. These detachments of German cavalry belonging to an untrained division operating on the extreme right have penetrated to Reims, six miles north of Lille, and other districts, which are defended only by territorial reservists."

"Our valiant people will know how to find courage to support this trial with unflinching faith in final success, which is not to be doubted. In telling to the country the whole truth, the government and military authorities give it the strongest proof of their absolute confidence in victory, which depends only on our perseverance and tenacity."

FRANCO-BRITISH FORCES BUTCHERED LIKE CATTLE BY KAISER'S BRAVE MEN

BULLETIN

New York, Aug. 25.—The capture of Namur and five of its forts is announced in a Berlin dispatch received here today via the wireless station at Naueu, Germany, and Sayville, L. I. The dispatch says this news was officially given out in the German capital and adds that the other four forts at Namur are being bombarded and that their fall is imminent.

(By Franklin T. Merrick)

Paris, Aug. 25.—Burning villages and heaps of bodies lying on Belgian soil around Charleroi show the ferocity with which the allied French and British troops opposed the wave of German troops that rolled them over and drove them back to France. For ten hours the tide of battle ebbed and flowed at Charleroi, the town being taken and retaken six times before the allies withdrew.

Part of the city was wrecked according to reports of the conflict received by the war office today. The villages of Marchiennes, Monceau, Chatelet and Landelies were burned.

Though the inhabitants of the peaceful little villages had been warned that the conflict was coming, scores remained and perished in their homes or were killed under the rain of shot and shell that swept the street. Fierce hand to hand fighting took place in Charleroi.

The French were the first to occupy the town but they were driven out by a bombardment from the German artillery. The Germans then entered by the left banks of the river Sambre, but within a short time more of the allied troops arrived and the conflict was renewed.

The Germans sought cover in the houses in the lower part of the town and to dislodge them the French were forced to seize that section with their artillery. The lower part of the town was soon in flames and the Germans were forced into the streets. Back and forth through these surged the contesting soldiers fighting desperately for victory.

The dead lay thick when the French were finally forced to withdraw.

Paris, Aug. 25. The French war office issued the following announcement last night:

"The French and English plan of attack having failed, owing to unforeseen difficulties the allied troops have retired to the covering positions."

"West of the river Meuse the English army on our left was attacked by the Germans, but behaved admirably, holding its ground with traditional steadfastness."

"The French assumed the offensive with two army corps. An African brigade in the front line carried away by their eagerness were received by a murderous fire. They did not give an inch but under counter attack by the Prussian guards they were obliged to retire, only however, after inflicting enormous losses. The Prussian guards especially suffered heavily."

"East of the river Meuse our troops advanced across an extremely difficult country and made a vigorous attack when they emerged from the woods, but were obliged to fall back after a stiff fight south of the river Sambre."

"On order of General Joffre, our troops and the British troops withdrew to the covering position. Our troops are intact; our cavalry has in no way suffered and our artillery has affirmed its superiority. Our officers and soldiers are in the best condition morally and physically."

"As a result of the orders which have been issued the aspect of the struggle will change for a few days. The French army will remain for a long time on the defensive, but at the right moment to

Thinks Italy Will Be Against Austria

Prof. Mastropolo, of the Mastropolo music house, is loudly warning of the events of the big war now waiting on the European continent.

The Professor has written a letter to his aged father asking him his views of the big conflict. The elder Mastropolo was once active in government affairs in Italy, having served as private secretary to the late King Emmanuel, grandfather of the present ruler of the country. He served 12 years as a teacher and as a reward a commission was appointed and presented him with a medal struck in his honor. He still lives at the old home place in Saratoga, six miles from the Adriatic sea. He served in the three wars of 1859, 1866 and 1900. Prof. Mastropolo is hopeful that his country will not be dragged into the war, for she has had her share of troubles, such as the war with Turkey, numerous volcanic eruptions, earthquakes, etc. He feels certain on one point, though, and that is that Italy will never be caught fighting on the side of Austria, for the nation has never become reconciled to the loss of some of its provinces now under Emperor Franz Joseph's control.

WOULD-BE-THIEF GOT RAP ON HEAD WITH HEAVY CANE

A sneak thief entered the T. Reitz home at 1010 Second street Monday evening, but his presence was discovered in time to prevent a robbery.

The members of the family were seated on the front veranda when they heard heavy footsteps in the rear part of the house. Mr. Reitz at once started to investigate, picking up a cane for a weapon, as he walked through the house. He found a man had come up onto the rear porch and into the house and was evidently making for upstairs. Finding himself caught, he jumped back and tried to bolt from the house, but did not succeed in doing so until Mr. Reitz had felled him with a well-directed blow on the head with the butt end of the cane. The fellow must have been stunned by the blow, for he fell twice in coming across the Reitz lawn. Finally gathering himself together,

LEROY COMPTON WINS IN PICTURE CONTEST

An honor that was never before won by a Portsmouth boy has come to Leroy Compton, former Portsmouth high school student, who is employed at Powells'. Compton has a picture in the September issue of "American Photography," the leading magazine of his kind in the world. The picture with which he won second prize in a contest, is a landscape scene taken in the hills near New Boston. When he tried for the prize he was in a race with competitors that rank among the greatest of amateurs. The contest was open to all from all over the world.

Most of those in competition do nothing but take pictures for a hobby and this adds more glory to Compton as he has but little time to devote to the work.

The picture portrays a small stream trickling down the hill side and it attracts attention as soon as the magazine is opened. Compton has the choice of a gold medal or a sum of money equal to the medal.

He started taking pictures a little over three years ago with a camera that he got for a prize from a magazine company.

In a few weeks Compton will leave for Barboursville, Ky., where he will enter Union College. A catalogue from the college contains Compton's name under the faculty list as staff photographer. His main work will be the taking of moving pictures of local life, the making of X-ray pictures and micro photos.

POLLY AND HER PALS

Five Cardinals Considered for Vacant Papacy

Alessandro Luadli, born at Milan on August 12, 1858, created Cardinal on April 15, 1907.

Domenico Ferrata, born at Gradoli, on March 4, 1847, created Cardinal on June 22, 1896.

Pietro Gasparri, born at Ussita on May 5, 1852, created Cardinal on December 10, 1907.

Pietro Maffi, born at Cortesana on October 12, 1858, created Cardinal on April 15, 1907.

Gaetano de Lai, born at Mulo on July 30, 1853, created Cardinal on December 10, 1907.

Five cardinals of sixty-six in the Roman Catholic church are being seriously considered for the place left vacant by the death of Pope Pius. The new Pope must be a cardinal whose piety, intellectual attainments and executive ability are well known. He must be an Italian, as although the Sacred College is free to elect a foreigner, for many centuries the Pope has been an Italian, and a foreign Pope, it is feared, would compromise the question of temporal power. Every Cardinal is bound by oath to defend, integrally and strenuously, the temporal rights and the liberty of the Holy See, especially the civil preeminence of the Pope. This implies that if elected Pope he is expected to oppose reconciliation with Italy, and a foreigner may fail to do so, while the three Italian Popes since 1870 followed implicitly this policy.

The new Pope must be pious, actively young so as to insure a long pontificate. Finally, he must not belong to a monastic order.

The majority of Cardinals are secular priests, and although hard to explain it is obvious to any one even slightly acquainted with Rome that a monk or a friar will never be elected Pope.

Cardinal Maffi and Luadli, and more so the former, have a good chance of election, as they are not monks and executive ability, and what is more important, their names have not been mentioned as likely candidates for the papacy. They are as it were the black horses that generally win in the conclave. The eight Cardinals di Curia who are considered papabili have not of course the same chance of success, and the process of elimination will further reduce their number.

Cardinals Lorenzelli, Belmonte and Vico stand slight chances of election, while Cardinal Rinaldi's name has never been mentioned.

On the contrary, Cardinal Gasparri is one of the most eminent members of the Sacred College and he is well fitted to become Pope. His chances of election are strong, and there are many who think that at the next conclave Cardinals Gasparri and Maffi will be the two foremost candidates.

The group of papabili therefore consists of the following cardinals: Maffi, Gasparri, Luadli, De Lai and Ferrata. Cardinal Maffi is 55 years old, he has been six years a cardinal. He is an eminent secular priest.

Spanish War Vets Camp At Louisville

Louisville, Aug. 25.—Great interest is being shown here regarding the National Encampment of the Spanish War Veterans to be held in this city August 31st to September 3rd. Preparations are going forward rapidly and it is expected that at least 20,000 veterans and friends will be here during the encampment. An extensive program of entertainment for the veterans has been arranged by the City of Louisville.

Consentable friendly rivalry has arisen in the race for the office of Commander-in-Chief. A number of candidates, each prominent in his own department, have announced their intentions; among these is a Post Senior Vice Commander in Chief, Capt. Henry W. Busch, of Michigan, whose campaign is already well developed and has received the hearty endorsement of several of the larger departments.

Youths Paveled

Proctor Judge Reilly has received notice from Superintendent R. E. Hastings of the Boys' Industrial School at Lancaster that Willie Meale and Elva Shaw, youths committed to that institution from this county, were paroled last Saturday. Both of the youths were sent to their homes in this city.

ODDS AND ENDS

Cheer Up
I'm not afraid of loneliness,
That's very plain to see;
I was born on a Friday,
The thirteenth. Yes, that's me.
I walk right under ladders,
I spill salt at my will;
I've also smashed a mirror,
And I'm around here still.

Around my chair I smile,
The worst was ever done;
When I am playing poker,
I have contempt for men
For people's superstitions,
I never knew a man who,
I never picked up a cross-stitch,
And don't see why I should.

I don't believe in bad luck,
It is a foolish thing;
Whatever you laugh at,
That's what your fate will bring.

There's no use looking forward,
To sorrow, you'll find;
If trouble's going to get you,
'Twill get you anyhow.

Backward and Forward
It was on a third's look out. A young man in a row boat was suddenly addressed by a fat woman in the seat behind:
"Pardon me, sir," she said, "but would you mind assisting me off at the next stop? You see, I am very large, and when I get off I have to go backward, so the conductor thinks I am trying to get aboard, and helps me on again. He has done this at three stops."

Which are You?
Nature has made only one greater mind than the manish woman, and that is the sixty man.

The dyspeptic who doesn't agree with anybody can't expect what he eats to agree with him.

Slight Mistake
"Oh," exclaimed the fair city boarder, as a couple of calves scampered across the meadow. "What pretty little cowboys!"
"You are mistaken, my dear," said the farmer, "them's bullocks."

Not Villa
